BA(Graphic Design)

Charles Sturt University
Wagga Wagga, Australia
1997 - 2000

EXPERTISE

- Adaptable & Flexible
- Strong Work Ethic
- Good, Clear Communication Skills
- Applications
 - Unity
 - Blender
 - Photoshop / Affinity
 - Substance Painter
 - OBS Studio
 - Camtasia
 - ZBrush
- 3D Asset Creation
 - Modelling
 - Sculpting
 - Retopology
 - Unwrapping UVs
 - Texturing
 - Rigging
 - Animation

LANGUAGE

- English

Solo Game Developer - VR/XR

2025

- Creating an Asteroids-like experience in VR/XR to take my game development skillset to full release for monetization and education for others to start their own game development journey
- All requirements for the game are created by me, from game concept, assets, coding, shaders, etc.

3D Generalist - Freelance

2006 - 2025

- Creating digital assets for a range of clients ranging from experience design, game design, avatars and props, graphic design, and web design.
- Key experiences include :
 - Asset creation and optimisation for animated backgrounds for Rheingold, a German Opera performed in Japan.
 - Architectural Assets for Previsualization for a VR architecture prototype.
 - Creating a 3D Buddha and traditional trident for use in projection on Koyasan Temple.
 - 3D Previsualisation of real world locations including the Strike Bowling Complex in Melbourne, Australia.

Builder Support & Tutorials - Mona

2021 - 2024

- Creating and optimising a number of digital spaces, assets, and Avatars for use in the Mona WebGL platform.
- Optimising digital assets (Props, VRM Avatars etc.) from clients and partners for WebGL based experiences.
- Offering creative solutions to improve the overall Metaverse experience as well as online competitions and events.
- Creating clear and easy to follow tutorials for highly optimised assets to be used in Unity and other WebGL Metaverse based ecosystems.

Digital Experience Mentor - SAE (Indonesia)

2020 - 2022

- Mentoring University students on creating 3D experiences using game engines such as Unity and Unreal.
- Conducting weekly personal tutoring with students to achieve the best results from asset creation, lighting, and animation through to story improvements.

3D Generalist - U235 Studios

2005 - 2006

- Creating digital assets such as characters and props for a first person shooter and fantasy sports game.
- Creating marketing materials to describe the experiences to prospective publishers.
- Helping test and improve the game experience.

University English Teacher - ECC

2025 - 2026

- Teaching University students in Japan how to speak English effectively.
- Utilising the materials given to teach topics such as SDGs, as well as general topics like travel and shopping.
- Navigating classes from 15 to 40 students across different Universities.

English Instructor - Berlitz

2008 - 2020

- Teaching Japanese students of all ages and level of ability how to speak English effectively.
- Developing creative approaches to simplify and effectively communicate challenging grammar and vocabulary concepts that students often struggled to understand.
- Using creative approaches to help engage younger learners in English education using games, art and crafts.

English Instructor - Nova

2006 - 2008

- Teaching Japanese students of all ages and level of ability how to speak English effectively.
- Taking on the company process and materials and expanding on them to create a welcoming and engaging educational environment.
- Leveraging support opportunities to learn from colleagues to enhance class dynamics.
